

HOW CB CONSTRUCTION DELIVERS A BETTER PROJECT EXPERIENCE

Built to Stand the Test of Time for the people and communities we serve.

1

Deep Local Expertise Grounded in Community

Construction is local and so are we. Because we live, work, and raise our families in Northern New Jersey, we understand the inspectors, the regulations, the rhythms, and the people who make projects move. This isn't familiarity it's roots. And roots eliminate friction. Local trust means fewer surprises, smoother approvals, and outcomes that truly serve the community.

2

Clients Who Value What We Value: Quality, Speed & Integrity

We partner with clients who want their projects done right and done with conviction. Low-price builders often create delays, rework, and frustration. That's not who we are. When we take on your project, you get: Craftsman-level quality, Clear communication, A mission-driven commitment to momentum and efficiency. You deserve a builder who treats your project like a responsibility not a race to the lowest bid.

3

National-Level Professionalism. Small-Firm Responsiveness.

With CB, you get the polish, standards, and strategic thinking of a national construction firm paired with the responsiveness, respect, and relationship-driven service of a local partner. No red tape. No runaround. Just straight answers, fast decisions, and practical solutions from people who care about the outcome as much as you do.

4

An Ownership Mindset Rooted in Purpose

We don't just assign teams we build them for the long term. Through our Employee Stock Ownership Program, our team isn't just working on your project... They own their role in it. A mission-first approach. A team personally invested in the schedule, the quality, and your satisfaction. When people feel responsible for the work, they deliver work that stands the test of time.

5

Values That Show Up in Every Inch of Your Project

Our values aren't buzzwords they're behaviors: **Forthrightness** in every conversation. **Authenticity** in every relationship. **Momentum & Efficiency** in every schedule. **Conviction** in our decision-making. **Excellence** in every detail. These values turn buildings into assets, clients into partners, and projects into long-term community impact. A builder invested in your community. And your success. Let's build something that stands the test of time.
